Valor Ventana with Inca Slab brick liner, Ventana Classic Fret, Draw Screen and Cast Surround. Finished with cultured stone and hearth.

## DOORS AND SCREENS

## TRIMS AND SURROUNDS

- 1) 1210DKA Alhambra "Wrought Iron" Door
- 2) 1215FDV FenderFire Double Door
- 3) 1240BPK Backing Plate with 1205 Draw Screen Kit
- 4) 1220FSV FenderFire Single Door
- 5) 614CVI Cast Surround with 1240BPK Backing Plate
- 6) 617STK Stone Trim Kit with 1240BPK Backing Plate
- 7) 616STK Arched Stone Trim with 1240BPK Backing Plate

## WALL SWITCH

The Ventana wall switch complements our standard Valor remote control. Light your pilot, then simply adjust the flame to your desired comfort level – all in one standard size switch.

The perfect option for those that value simplicity.

## BACKING PLATES

Designed for a "clean look", the Ventana's backing plates also complement our cast iron and stone surrounds.

Choose from two styles – Three-sided (shown on following page) or four-sided for raised installations.

## DOORS AND SCREENS

Ventana fronts not only add another design element and realism to your fire, they provide safety for young children and pets.

Choose from our FenderFire Double Door, Single Door, Alhambra Door and Draw Screen Kit.

## BRICK INTERIORS

There are four different Ventana brick liner sets to choose from: Inca Slab, Black Slab, Frontera and Victorian Red.

## Designed Clean Engineered Green

The Valor Ventana has been designed for versatility and selection.

You may select an ultra "clean" look or customize your Ventana with our wide collection of unique accessories knowing that everything has been carefully designed and quality-crafted.

Natural gas is by far the cleanest of all hearth fuels. The Ventana burns gas wisely, making it an environmentally friendly choice for your home.

By zone heating a specific area of your house, you will use less overall energy. Why heat vacant, unoccupied spaces when you can heat the rooms in your home that you use most?

For over 25 years, Valor has been promoting the principle of efficient gas zone-heating. We take pride in creating efficient heating solutions for your home. Turn down the furnace and turn on your Valor!

## WHAT MAKES THE VALOR VENTANA UNIQUE?

Most big picture gas fireplaces are built for aesthetics and not to produce heat.

We've implemented Valor radiant-convected heat technology and made the Ventana our biggest heater-rated fireplace to date.

Plus, we engineered an energy efficient fireplace that consumes considerably less fuel than our competitors' and still produces up to twice the heat in your home.

It's not just another gas fireplace, it's a Valor!

## SPECIAL FEATURES

- Recessed glass reduces reflection and eliminates the aquarium effect that you get with other gas fireplaces.

- A 60% turndown allows you to match the fire's intensity to your home comfort needs. Make the most of your heating dollar by choosing the temperature that's right for you.

- Remote pilot ignition with programmable timer and thermostat saves energy, increases efficiency and offers convenience.

- Accent lighting adds ambience to a room even when the fire is off.

- Smaller venting and tapered sides allow the Ventana to fit in tight corners. All required non-combustible materials are supplied for ease of installation.

- The Ventana is a fully functional heater that doesn't rely on electricity for heat. Engineered right, so you never need a fan.
