Linear Gas Fireplaces
A Transitional Interpretation of Fire

Fireplace Xtrordinair® has pushed the limits of fire once again, by creating our most transitional lineup of fireplaces yet. We've taken a traditional fireplace and extended the length to give it a sleek linear profile with tall, dancing flames that emerge from a bed of glowing, under-lit crushed glass. The result is our Linear Gas Fireplace Series.

The Perfect Balance of Beauty and Function

The 3615™, 4415™, 4415 See-Thru™ and 6015™ represent the very best of home heating and style. These fireplaces feature variable heat outputs and can be personalized or finished to complement any home's décor, making them perfect for any living space, from cozy dens to great rooms.

Quality and Craftsmanship

The Linear Gas Fireplaces are built to extremely high standards, using the finest materials available at our factory located in Mukilteo, Washington. See the difference in the level of quality, heavy duty construction, and workmanship of these fireplaces.

GreenSmart® Remote Control

The GreenSmart® remote offers the ultimate in features and convenience at your fingertips.

Multi-Function Control

Functions of the Remote:
- Thermostat
- Flame Adjustment
- Fan Operation
- Accent Light Adjustment
- GreenSmart® /CPI Pilots

Scan this QR Code to watch a video on how the GreenSmart® remote works.

On Cover
4415™ See-Thru shown with Ledgestone Fireback, Driftwood Twigs and Stones Fire-Art™ Kit and Platinum Glass.
See The Difference In Quality and Craftsmanship

- High heat home heaters.
- Huge Neo-Ceramic glass viewing area with nearly invisible 2015 ANSI-compliant safety screen.
- Diamond-Fyre™ linear burner with reflective crushed glass floor in three vibrant colors.
- Adjustable under-lit accent lighting highlights the beautiful flames and glass media. This feature can also be used as mood lighting in the room when the fireplace is not burning.
- GreenSmart™ control system with standard remote control.
- Twin 90 CFM (180 total) convection fans quickly move heated air throughout the home.
- Bi-metallic damper in the exhaust automatically opens at start-up and closes as the fireplace heats up to ensure the best looking flame and performance at all times.
- Heavy duty, welded 14-gauge steel fireplace body.
Firebacks (Required)
Choose from four unique options to line the firebox of your linear fireplace.

- **Black Painted Fireback**
  Creates the illusion of a large, deep firebox.

- **LedgeStone Pattern Fireback**
  A naturally dramatic fireback with three-dimensional shadowing from the flames and light.

- **Black Porcelain Enamel Fireback**
  Creates a rich flame reflection.

- **Silver Painted Fireback**
  Soft silver finish that lightens up the interior of the fireplace.

- **Black Painted Fireback**
  Creates the illusion of a large, deep firebox.

Glass Interior Floor (Required)
Once you’ve chosen your fireback, choose one of three different crushed glass colors for the floor of your fireplace. See your dealer for custom colors.

- **Platinum Glass**
  - Driftwood
  - Log Set

- **Bronze Glass**
  - Driftwood
  - Log Set

- **Cobalt Glass**
  - Driftwood
  - Log Set

Exterior Tile Trim Kit Option
Although this fireplace has a tile stop for your facing material to finish up to, the Tile Trim Kit can provide a more decorative option that beautifully finishes and frames the fire. The Tile Trim Kit is 5/8" wide and is available in two adjustable depths: 1/2” – 7/8” or 1” – 1 ½”.

- **Gallery Face Option**
The Gallery Face is black painted and accommodates tile or stone facing up to 1” deep. It features beveled sides that draw the eye in towards the fire, giving the fireplace a larger presence.

Optional Power Heat Vent Kits
(Not available on 4415™ See-Thru)
The High Output Linear Gas Fireplaces heating power can be used to heat additional rooms in your home with the optional Power Heat Vent Kit. The kit consists of a 130 CFM fan and a 20 foot heat duct. You can add up to two kits to these units, which are controlled from the remote location.

Fyre-Art™ (Optional)
Although not required, these decorative options allow you to personalize your fireplace with a little added style.

- **Driftwood**
- **Twigs and Stones**
- **Fyre-Art™ Kit**

Dimensions for the Gallery Face by model.
- **3615™**: 47" W x 19-5/8" H
- **4415™**: 55" W x 19-5/8" H
- **6015™**: 71" W x 19-5/8" H

3615™ Specifications
- Heating Capacity*: Up To 1,700 sq. ft.
- Variable Input: 18,331 to 33,000 BTUs/Hr (NG)
- 17,555 to 33,000 BTUs/Hr (LP)
- Glass Size: 34” W (864 mm) x 13” H (330 mm)
- Steady State (High)**: Up to 75.22% NG and Up to 77.38% LP
- Canada EnerGuide P4 Efficiency:** †: 61.51% NG and 63.62% LP
- AFUE: 61.5% NG, 62.1% LP

4415™ Specifications
- Heating Capacity*: Up To 2,100 sq. ft.
- Variable Input: 21,672 to 42,000 BTUs/Hr (NG)
- 21,413 to 42,000 BTUs/Hr (LP)
- Glass Size: 2 x 42” W (1118 mm) x 13” H (330 mm)
- Steady State (High)**: Up to 80.67% NG and Up to 82.84% LP
- Canada EnerGuide P4 Efficiency:** †: 70.73% NG and 71.71% LP
- AFUE: 72.3% NG and 71.1% LP

6015™ Specifications
- Heating Capacity*: Up To 2,800 sq. ft.
- Variable Input: 30,273 to 56,000 BTUs/Hr (NG)
- 29,626 to 56,000 BTUs/Hr (LP)
- Glass Size: 2 x 58” W (1473 mm) x 13” H (330 mm)
- Steady State (High)**: Up to 77.34% NG and Up to 78.74% LP
- Canada EnerGuide P4 Efficiency:** †: 63.56% NG and 66.07% LP
- AFUE: 63.5% NG and 67.5% LP

* Heating Capacity will vary with floor plan and ceiling height, insulation, and outside ambient temperature.
** Your results may vary depending on your vent configuration.
† P4 Efficiency determined using CSA P4.1-02.
