

SLIM-LINE BUILT-IN FIREPLACES

SÓLAS

CONTEMPORARY FIRE

SÓLAS

TRANSFORM YOUR INTERIOR WITH A SÓLAS SLIM-LINE BUILT-IN GAS FIREPLACE. OUR REVOLUTIONARY DESIGNS ALLOW YOU TO CREATE A DRAMATIC MODERN CONTEMPORARY FOCAL POINT WHILE OCCUPYING A MINIMUM AMOUNT OF YOUR ROOMS' FLOOR SPACE.

WHY SÓLAS SLIM-LINE BUILT-IN FIREPLACES

Our state-of-the-art designs mean that SÓLAS Slim-Line Built-In Fireplaces can be installed almost anywhere. Only 12 inches thin and with low overall height, installation space requirements are reduced to an absolute minimum.

INNOVATIVE DESIGN

The SÓLAS line of highly efficient contemporary fireplaces offer all of the features in demand by today's most discerning, design conscious homeowner.

FLEXIBLE VENTING OPTIONS

From incredibly short minimum venting requirements, to available Power Venting, SÓLAS Slim-Line Built-In Fireplaces offer unprecedented installation flexibility.

INSTALLATION FLEXIBILITY

SÓLAS Slim-Line Built-In fireplaces require only 4 inches of noncombustible construction materials around the unit.

SIMPLE OPERATION

SÓLAS Fireplaces can be operated manually, or THERMOSTATICALLY using the hand held REMOTE CONTROL (standard). An optional wall switch is also available for manual operation. Flame height can be raised or lowered to achieve desired effect.

NG OR LPG FUEL OPTIONS

SÓLAS Slim-Line Built-In fireplaces can be easily converted to operate on either Natural or LPG Gas.

SAFETY STANDARDS

All SÓLAS products come with an invisible, inconspicuous modern-mesh screen in compliance with the latest safety standards.

PORCELAIN ENAMEL

SÓLAS Fireplaces provide amazing radiant heat using the combination of reflective glass media and porcelain enamel panels. The panels provide reflective radiant heat, in addition to several layers of fire light—all of which enhance the soothing dancing flames.

REFLECTIVE GLASS MEDIA BURNER PAN

Reflective glass media is used specifically for SÓLAS Fireplaces—ensuring they will operate with the highest efficiency possible. Glass crystals on top of the burner cast light throughout the fireplace and surrounding areas. Black and clear glass media as standard; colored glass media optional.

BATTERY OPERATION

SÓLAS Built-In fireplaces are 110V powered, with a battery backup for power out situations.

FORTY8 | SLIM-LINE BUILT-IN FIREPLACE

BUILT-IN GAS FIREPLACE

Create new perspectives with our Single-Sided or See-Thru model FORTY8 fireplaces. Our Single-Sided model FORTY8 will add a dramatic focal point to any room, while the See-Thru FORTY8 will allow you to enjoy the flames from more than one room and from different angles. Our Slim-Line models are where innovation-meets-ambiance.

FEATURES

- Thin 12" Design for Greater Installation Flexibility
- Natural Gas or Propane
- Automatic Pilot Ignition
- Reflective Porcelain Enamel Liners
- Integrated Modern Mesh Safety Screen
- Optional Heat Redistribution Kit
- Optional Power Vent Kit
- Variable Speed Blower

SPECIFICATIONS

BTU Rate Range (LP)	30,000/hr
BTU Rate Range (NG)	26,000/hr
Viewing Area	49" W x 12.52" H
Dimensions	63.22" W x 28.83" H x 12" D
Venting.....	4" x 6" Direct Vent
Minimum Flue Vertical	12"
Blower.....	Standard Variable Speed
Remote Control	Standard Thermostatic Remote Control

Certified by OMNI-Test Laboratories, Inc., to ANSI Z21.88a/CSA 2.33-2014 Vented Gas Fireplace Heaters and CAN/CGA-2.17 (R2009), Gas-Fired Appliances for use at High Altitudes

SIXTY0 | SLIM-LINE BUILT-IN FIREPLACE

SINGLE-SIDED
